Confidential

The Greyhound Welfare & Integrity Commission needs to be empowered to enforce greyhound welfare in the NSW greyhound racing industry.

The NSW greyhound industry has shown time and time again that they are unable or unwilling to execute the kind of oversight required to regulate the industry and ensure the welfare of the animals. They have been supplied with multiple opportunities to self-regulate which has failed miserably resulting in the terrible and unnecessary suffering of the animals abused by this industry.

A marker of living in a civilised society is protection of those that are unable to protect themselves. These animals need protection immediately.
