As a mother of 5 kids and a person who knows someone with epilepsy. Please can you get us more doctors for Wellington. Our population alone calls for it. We also cater for the prison and back Packers working the solar farm. It's dire we all have access to doctors. I'm sadden to see our hospital can't always have a doctor there. My last labour was 35mins. Lucky I was booked in else where. Had I of gone natural, my baby and I wouldn't of had a doctor to help me at Wellington. Nor would I have made the 40-45min trip to Dubbo. Please help Wellington
