

**Submission  
No 409**

**INQUIRY INTO HEALTH OUTCOMES AND ACCESS TO  
HEALTH AND HOSPITAL SERVICES IN RURAL,  
REGIONAL AND REMOTE NEW SOUTH WALES**

**Name:** Mr Steven Vella

**Date Received:** 5 January 2021

---

Thank you to all who work for the good of society in the health industry and care for us who need and trust them from conception, while growing up and when approaching death. In various situations my observations make me wonder, Do some persons employed in the industry not like caring for people and what that entails? Do some medical persons say things aloud that the public expect to hear, so as not to alarm them, but communicate an alternate meaning between themselves and act in a different way?
