I grew up in Wellington NSW.

They need a full time Doctor at the Hospital as they have a large Correctional Facility nearby as well as new Solar farms which have brought large amounts of people to the area.

This is in addition to Wellington township and the rural properties surrounding it.

As with many small towns they have an ageing population which would benefit from a Doctor on sites at all times.

Wellington should be staffed with qualified professionals and supported in this way if they are expected to house so many in the local correctional facility and be an energy hub for NSW.
