**INQUIRY INTO EDUCATION LEGISLATION
AMENDMENT (PARENTAL RIGHTS) BILL 2020**

Name: Ms Mara Kellow

Date Received: 20 August 2020

As the mother of young children, I strongly support this Bill. Parents have created and nurtured their children and know them better than anyone else. They therefore, have their child's welfare at heart more than do strangers. The Minister for Education and Early Childhood learning, Sarah Mitchell has acknowledged that instilling values and social and political ideas was the job of parents - not the school.

Despite this, activists relentlessly continue to push their agenda. The far left Teachers Federation is mandating materials in NSW that blatantly push so-called Safe Schools agenda.

At best this shows contempt for the heart-felt concerns of parents, at worst it can be seen as a recruitment measure by the radical /Trans lobby. I want my children to keep their innocence and not be confused or distressed and perhaps sexualised before puberty.

Regards,

Mara Kellow
