**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ms Marguerite Morgan

Date Received: 19 March 2021

I'm really concerned about the fences some farmers are installing FORCING kangaroos onto roads and to their death. With the fires and climate change, kangaroos and macrocosm are really struggling. More must be done to ensure their safety. Unique and iconic, I worry for the future of ALL Native Australian wildlife. Also indiscriminate logging and mining must stop. Please save our wildlife. Thank you.
