**INQUIRY INTO HEALTH AND WELLBEING OF  
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH  
WALES**

**Name:** Ms Janina Price

**Date Received:** 23 March 2021

---

I have just travelled from Tamworth NSW across Australia to Western Australia. Along my trip across I have not seen one kangaroo alive or dead along the roadside. Where are all these Australian Icons, have they been decimated by the bushfires in each state, have they been shot by harvesters, farmers or city cowboy shooters who come out on weekends to kill everything that moves. Where are all the Kangaroos, I have not seen one.

This proves to me as it should to you that our Australian Iconic Kangaroo is in total decline or has been decimated by the Wonton Actions of a Government that is not in touch with our Totally Unique Australian Wildlife. These culls of our Kangaroos are wiping out populations. Where are all our Kangaroos gone???
