**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Mrs Deanna Rudd
Date Received: 29 March 2021

I would like to take this opportunity to speak up for these magnificent marsupials that happen to represent our Country on our Coat of Arms.

The barbaric treatment of these animals is unspeakable and shameful to our Country. I don't know of another Country on this planet that would cull an animal that does not exist anywhere else in the world.

We have such unique wildlife within Australia and the best we can do is cull them for dog food, human consumption, erect cruel & barbaric exclusion fencing to animals that were here long before we were.

Disgraceful, horrific & inhuman behaviour
