INQUIRY INTO IMPACT OF THE WESTERN HARBOUR TUNNEL AND BEACHES LINK

Name: Karen Morrison

Date Received: 9 April 2021

Good day, I hereby request this inquiry cover the environmental impact of the proposed tunnel. There is much at stake: clean waters for marine and human life, two harbour swimming pools in the direct vicinity, parklands, wildlife habitats, residents' housing, and so much more. Why is this tunnel necessary? To increase vehicle traffic? Why are we not spending this enormous sum of money on public transport improvements? So many questions. Thank you.
