

INQUIRY INTO ROAD TOLLING REGIMES

Name: Name suppressed

Date Received: 9 April 2021

Partially
Confidential

To Whom it may concern:

I am writing this submission to question the the rationale for motorcycle tolls being set at the same the toll for car traffic. If you follow the logic of charging truck tolls at three times the toll for car traffic (due to size, higher impact on infrastructure, wear&tear etc) then in turn motorcycle tolls should be set at a third of the toll for car traffic.

I believe charging the same toll for motorcycles as for car traffic sets a disincentive for using more sustainable and flexible modes of transportation that would reduce congestion on our traffic network.

I would like to encourage the Committee to review the tolling for motorcycles approach and set it at no more than a third of the price of the car traffic toll.
