The Kangaroo and Australia are totally interlinked in fact it appears on you Australian Air Force roundel. To be destroying what many around the world see as the animal that represents Australia and people think of your country when they see it in pictures seems incredible destroying your own image, No other country has this animal and it is tragedy that it is now appears to be seen in Australia seen as a commerce source of, food and to be used as as footwear by Nike.

Please do not allow this Australian emblematic animal to be hunted for commercial reasons and thus staining Australia good name and reputation world wide
