**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Name suppressed
Date Received: 21 March 2021

Partially
Confidential

The commercial harvest of kangaroos is not to be feared by Pearson and co the impact on numbers from this is microscopic as compared to the inhumane wastefulness of mitigation permits and greedy unremorseful landowners.

It seems once landowners put up there governmentally funded exclusion fences there entitled to make there own rules on macropod control. Poisoning of watering points, aerial shotgun shoots and other cruel methods authorities seem to be turning a blind eye to.

Please put a stop to mitigation permits and conduct random aerial property searches to stop landowners with no respect for the law!
