**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ms Maria Bradley

Date Received: 5 April 2021

Thank you for this important inquiry The commercial kangaroo industry is barbaric, inhumane and unsustainable It is damaging to Australia's international reputation and branding Our wildlife is under so many threats, habitat loss and fragmentation , bushfires and floods - there is no capacity for a commercial killing industry This industry must end .
