WALES**

Australia has icons kangaroos, Koalas, Brumbies, native birds, wallabies, and a big variety of so many animals native to Australia.

We as a people, keep watching the native environments, forests, rain forests, bulldozed to make way for homes per say in the future.

This is not appropriate, the animals are part of our heritage, Australian way of life. the native wildlife is having their homes taken away, then, they are left to die certain dead. or Slaughtered, with no security and left wondering in a daze.

Shame on the Government to treat its wildlife in this fashion.

Basic rights non existent.

People write letters, sign petitions, run rallies, all ignored.

STOP Killing our Kangaroos, wildlife, and preserve the Australia Way of life, this is our country, along with the wildlife. The Government allows the money or the \$ Dollar to rule Further whoever, has the \$ dollar makes the rules.

Wildlife and our lives rule over the dollar, the millions of people live in Australia are the Nation.
