

**INQUIRY INTO ACQUISITION OF LAND IN RELATION TO  
MAJOR TRANSPORT PROJECTS**

**Name:** Name suppressed

**Date Received:** 21 April 2021

---

Partially  
Confidential

I see lots of land is classified as 'green space' and shiny brochures show them developed as public parks and other re-creation facility.. As a landowner his is unfair and unjust, as I have invested all my earning and have lived here for a long time, to be told that my land will be used for RE activity and I will not be paid for it? Does not sound fair to me. I am happy with the development and happy to see a nice green city developed but not at my cost. As central and state governments are investing enormous amount for the area, I don't see why land-owners in south-creek cannot be paid a reasonable rate for their land. Hoping this makes some change, as my previous 5 submissions have not been considered or has not impacted planning department's decision making in any way.

Thanks for your time

Regards
