**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Miss Angela Kirton

Date Received: 6 April 2021

Dear Australia Government.

After your recent bushfires and the horror we witnessed from the UK, we decided to help as much as we could with the animals. We sent over 4,000 items, which included Joey Pouches, nests, bay wraps, snake catchers etc. Also we had a fund raising day and raised \$8,000 to help your injured orphaned, homeless wildlife.

I find it totally abhorrent, and utterly shameful that your Government and can then allow the shooting of your beautiful iconic Kangaroos. What an absolute disgrace this is! I am appealing to you from overseas, to please help put a stop to this horrific situation. Thousands of people in the UK alone didn't spend hours trying to help your animals in your country, then you allow the slaughter and killing of these poor innocent animals. Utterly, utterly disgusting !!!

Take a look at the photos, did we do all this like everyone else, for people to go out and just shoot them !!!! I really hope you will listen to not just your own people, but worldwide too, and put an immediate stop to this barbaric and outdated attitude in killing these poor creatures.

Yours very angrily

Angela Kirton
