**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ingrid Broecker

Date Received: 6 April 2021

Hello, we just want to let you know:

Some years ago my family and friends enjoyed our holiday in NSW and we were really happy to see any wildlife. We were eager to see kangaroos, so famous for AUS, but they were not easy to find.

Later we couldn't stop watching these nice lovable animals. Many tourists are coming for this experience. You should give kangaroos the chance to survive with a sufficient number of individuals!

Kind regards
