**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Mr Fawaz Al-Fayez

Date Received: 6 April 2021

Scores of kangaroo corpses around New South Wales were found weeks after the bushfires according to various sources.

I believe it is imperative that the Australian government should do more to protect its iconic and beloved fauna from illegal, unauthorized hunting and poaching.

We cannot suffer any more devastation and loss to the biodiversity of this wonderful country.
