I am opposed to the commercial kangaroo industry.

I am opposed to kangaroo culling and culling quotas. It is their habitat that has been invaded.

They're soft footed animals so to not degrade the land, unlike stock animals.

I am opposed to exclusion fences, they can maim the animals, unnecessary cruelty.

I am for land conservation, in the form of state parks and reserves that allow native animals to flourish there. I am for conservation of land - stop destroying it by clearing trees and the use for stock animals.

I am for natural kangaroo habitats.
