**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Name suppressed
Date Received: 6 April 2021

Partially
Confidential

I am from the Uk. I am writing to ask you to stop shooting kangaroo both for meat and for sport. These are highly intelligent emotionally sensitive animals and this is just so wrong. Mothers are often. Killed and they have a baby in their pouch. Again cruelly killed. When the fires happened all over the news in the Uk was the Story of trying to rescue and save each animal. But as soon as the media looked away you were back culling kangaroos. Very dishonest and so wrong when you made billions in aid sent by people who thought you had these animals you desperately wanted to help. They do not deserve this. And who are you to think you have the right to be a god and decide who lives and who dies. By the way the people killing them are a terrible shot!! So many pics Iv seen of animals suffering horrific injuries but still alive suffering terribly a month later with severe infection agony and maggots crawling in their flesh. Imagine the pain and fear of that. This is just so obviously wrong. There are many charities that do their utmost to help these beautiful animals. Please stop this do the right thing. The world is watching. Wonder how much money donated in fires actually made it to the rescues charities who did all they could to help them. This isn't complicated. Just stop
