I am writing in response to the animal slaughter of our kangaroos and all Native animals . The macropods are now as you are well aware are the largest mass mammal slaughter in the world. This is unacceptable it is clear that money is the factor behind this disgusting and inhuman practice .The number of kangaroos in the wild are totally fabricated . You are destroying this country's environment and Natural resources for greed and no care for this country's people . And cater to foreign corporations to further fund your political agendas with no reverence for this gentle iconic animal. I request that you cease immediately the culling of all Australian wildlife and their environment.
