**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Name suppressed
Date Received: 12 April 2021

Partially
Confidential

Good Day,

I am Canadian but have family in Australia and have been to your beautiful country before. I loved the kindest from the people, the biodiversity, and the unique animals, especially your national symbol, the Kangaroo. I was heartbroken to find out the disgusting treatment of them. And for what? In 2021, we as a species do not need meat to thrive, especially unethical (well, all is) and unhealthy meat containing e.coli. I truly do not understand how the Australian government can sit back and allow the inhumane treatment of these gorgeous beings. When will we stop destroying nature and wildlife that get in our way, instead of learning to work with nature and wildlife. There is no reason these days we cannot find a way to coexist. A government is voted in for the people by the people, not for big corporate profit, although I know the latter happens everywhere. Be better, do something for your people, your national animal, your country. I know Australia is better than this, so I urge you to stop the slaughter of Kangaroos. In the meantime, I will be doing everything in my power to make this dirty little secret public and to force our government to stop the import of this meat.
