**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Name suppressed
Date Received: 15 April 2021

Partially
Confidential

I cannot believe we are in humanely allowing our national animal to be brutally slaughtered by anyone who desires to go out & shoot them,
This would never be accepted in regards to cattle, there is no governing to who & how this takes place,
I'm appalled by the fact we as a nation are allowing any of this, especially after such devastating fires that wiped out most of our population,
They're are many working tirelessly to save out wildlife while others without any knowledge of these gently creatures kill with no remorse for profit & greed, it is not just kangaroos hunters kill, they run over wombats & many other creatures in there way with no regard to life,
I have heard first hand from Hunters that speak as though the animal is nothing more than a product to discard like rubbish,
I'm absolutely appalled that our government shows little to no concern to preserve life & respect, especially when we can see how other parts of the world have little left from human population over running & destroying so much natural habitat,
