**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ms Deborah Huish

Date Received: 10 April 2021

I am absolutely disgusted and horrified at the continual murder of our wildlife in Australia. It is despicable enough that adult kangaroos are killed but also their Joey's are clubbed to death. These are sentient beings and an Australian icon .I can't believe they are treated so cruelly. It is an absolute disgrace and needs to be stopped immediately. I presume when tourism resumes, if the tourists were made aware of our treatment of our wildlife they would be very distraught and would stop spending their tourist dollar elsewhere.

Have some bloody compassion!!!!!!
