**INQUIRY INTO HEALTH AND WELLBEING OF  
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH  
WALES**

**Name:** Mr James Shore

**Date Received:** 15 April 2021

---

My submission is this, stop killing the Kangaroos and other animals as Australia has such an abismal rate of killing its native wildlife and fauna once theyre gone theyre gone forever no coming back they are uniquely Australian an uour national emblem yet you choose to slaughter them like they are some foreign disease grow up Australia stop killing all the wildlife they have no voice and im but 1 of many thoysands possibly millions of people worldwide that detest this slaughtering of innocent lives! For what? Developement? Progression? Greed? Food? Whats the facts mot the rubbish posted to media but the FACTS? Do yhe right thing parliament and protect these animals before its to late
