**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Mrs Ramona Headifen

Date Received: 21 April 2021

I have no direct experience with NSW kangaroos, but am saddened and concerned that in 2021, our government still thinks this culling process is OK. Our kangaroos face so many other pressures and we simply cannot be responsible for their extinction. They are part of a diverse ecosystem which we can't fully understand.

Thank you
