

**Submission  
No 167**

**INQUIRY INTO HEALTH AND WELLBEING OF  
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH  
WALES**

**Name:** Ms Christine Whalan

**Date Received:** 16 April 2021

---

Stop Culling the Kangaroos.

Support to Mark Pearson MP

With the NSW kangaroo inquiry well underway, you now have the chance to tell the NSW Government what you think about the commercial kangaroo industry, culling, exclusion fences, population counts, cull quotas, conservation, and threats to kangaroo habitat

Keep our Native life alive. Native Animals are icons of Australia. Australia not for sale for profit. Animals have a basic right to be on the Australian lands.

Stop bulldozing our forest and native lands that require and house wildlife.

Kangaroos, Brumbies, wallabies, Native birds many icons as well Parrots, cockatoos, black cockatoos. hawks crows Eagles magpies, kookburras too many to mention here on this letter.

Our wildlife includes lizards, frogs, snakes, hedgehogs, dingos, koalas, wild pigs. Emus, again to many too mention here .

Parliament members represent the Australia people, Australia's not for sale nation, that is 100% for Our kangaroos, all forms of wildlife to be allowed basic right to live on the Australian land free to live without so many treats to their livelihood. Stop the commercial kangaroo industry, culling, exclusion fences, population counts, cull quotas, conservation, and threats to kangaroo habitat.
