**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Mrs Christine Fenwick

Date Received: 20 April 2021

On the Kangaroo issue. I live and work in the country and for the past 3 or more years the only Kangaroo I see are dead on the side of the road or where some heartless farmer has just shot them willy nilly and left them to die slowly in his paddocks ! I am saddened by this countries lack of respect and care for our native wildlife so many are at extinction level. Their natural habitat has been decimated by the greed of farmers and now these displaced animals are looking for a safe place to be and this government continues to allow their habitat to be destroyed and for the heartless culling of them. Will the zoo be the only place people will be able to see our native animals ???? We need compassion in power not greed !
