**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ms Cheryl Maurice

Date Received: 20 April 2021

Why has this Govt decided to kill kangaroos. These native animals are entitled to live harmoniously in all parts of Australia. Killing kangaroos on the mass scale that has been happening this past year is cruel and unnecessary. There's plenty of grazing land for kangaroos and cattle. Cattle usually have eight to ten paddocks for each flock. It's greedy and unnecessary not to allow Kangaroos a life and existence. Killing baby joeys is wiping out a species is horrific. Giving licence to do this killing by snipers and anyone else who has a gun is immoral. Stop the slaughter.
