

**Submission  
No 210**

**INQUIRY INTO HEALTH AND WELLBEING OF  
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH  
WALES**

**Name:** Ms Kay Podmore

**Date Received:** 21 April 2021

---

The NSW government promotes, financially supports and even actively participates in the brutal killing of tens of thousands of kangaroos across our state. This is an international disgrace and is a shameful way to treat an Aboriginal totem and our national emblem. With evidence now suggesting that the long-term survival of our Kangaroos is at risk, we need to push harder to end the commercial slaughter of kangaroo and wallabies and close the processing industries.
