**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Mr Carey Theil

Date Received: 22 April 2021

Australia is blessed to have so many amazing species, including kangaroos. I was stunned to see these creates when I visited the country a few years ago, and will never forget the experience.

I hope you will show compassion and tolerance to kangaroos, rather than allow a commercial industry that culls, uses exclusion fences, population counts, and cull quotas.
