**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ms Sarah Hughes

Date Received: 22 April 2021

To whom it may concern,

The kangaroo slaughtering industry is an absolute disgrace and has no place in what we refer to as a civilised society. It is beyond brutal and no animal deserves to be chased, terrorised and gunned down, or have their head smashed into the ground to be killed.

Greedy corporations annihilating our beautiful, beautiful gentle Kangaroo's for profit is an absolute disgrace, and does not belong in the 21st century. I am continually repulsed by the behavior and treatment the Australian people show towards animals. What is being inflicted on our Kangaroo's is a bloodbath and an embarrassment to all Australians.
