**INQUIRY INTO HEALTH AND WELLBEING OF  
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH  
WALES**

**Name:** Ms Suellen Delahunt

**Date Received:** 23 April 2021

---

Please don't kill the kangaroos as they are national icon and the kill i ng is barbaric . Also kangaroos are herd animals like wilder beasts and if you see three together that is what remains of a herd. If you see 40 kangaroos together that is a herd. However fencing by private property stops the migration of herd Animals like kangaroos who migrate to pastures depending on season and fodder, water. So shooting, killing kangaroos results in the eventual decimation of the species, kangaroos. Employment as a result of killing kangaroos is not justified in an educated, informed, compassionate society. killing kangaroos makes all Australians irresponsible for their extinction but I do not want them killed.
