Joe Gattellari

Bringelly, NSW, 2556

My name is Joe Gattellari and I have lived at Bringelly with my family for 7 years but I have lived in Bringelly since 1973. I was able to purchase this land through hard work which I started when I was 14 years old, now you people want to steal it from us. I purchased this land for my kids to one day build there houses on it and to have our grandkids close to us. When I purchased this land it was only 10% flood zone but now you people are saying its over 85%. Do you really think that I would buy this land at 85% flood zone how dare you. What guarantee do I get that my land will not be rezoned once it has been stolen so government and Liverpool Council will reap the financial windfall and not my family. The evidence of this has been shown, Bringelly Rd were signs of government selling surplus land with commercial zoning which they brought. When the land was rezoned to green space. Why can't we sell to the developers and then government and council can then state what they want, how greedy are you people. I want to know how you people think that if my land is zoned E2 how can you say that you are going to build bike lanes walking lanes and picnic grounds, you can only do that is you REZONE!!! the land. We do not trust Liverpool Council nobody does most corrupt bunch of people anyone has meet and looks like government have there fingers in the pie. Tell me how can a school be built at Austral were council have put up a 2 METER flood sign right in front of the school!!! and next door a knew subdivision (corruption at its best) I was offered by a developer \$1.3 million per acer and they told me that Kelvin Park is worth millions \$\$\$ but now since this garbage E2 they have now backed away from the offer and have told me that i could not give it away (SEE WHAT IM SAYING CORRUPTION ALL THE WAY) This money we were going to get a good chunk of was for my daughter who has severe disabilities and planned to take her to America for specialized treatment but thanks to you leeches that can not happen. We will all fight this over 1000 families through the courts and as my solicitor tells me with over 1000 court cases this whole area will be in limbo for decades and put the whole court system into kaos, PLEASE RECONSIDER your decision and let us get on with living our lives

JOE GATTELLARI
