**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Name suppressed
Date Received: 24 April 2021

Partially
Confidential

the harvest of kangaroo's is very important to farmers to limit the damage to crops and pasture. And is a far better look than a paddock full of carcasses shot using drop tages. I also believe the economical value to small rural communities is more important, than the opinions of a minority that have no idea about the damage that kangaroo's can do if there pollution is not kept in check.
