**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ms Faye Pritchard

Date Received: 24 April 2021

To whom it may concern

I wanted to voice my opinion on the culling of our kangaroos. I see the tail end of the disregard for these animals, as a carer it breaks my heart to know that mums are shot with no thought for the joey's they may be carrying and then the thought of these babies when they are found are mercilessly beaten to death, please in what universities is this acceptable, if I was to treat most other animals with so much disrespect I would be in court for animal cruelty. I don't see how what happens to our kangaroos is not viewed in the same light. Are there government representatives there to oversee this "humane" slaughter, I bet not. How can you profess to your claims when there is no one policing this. This is just the opinion of a carer who tries to save our kangaroos.
