

**Submission  
No 310**

**INQUIRY INTO HEALTH AND WELLBEING OF  
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH  
WALES**

**Name:** Ms Stella Savvas

**Date Received:** 24 April 2021

---

I am very sad and angry to see our Kangaroos killed for meat and products. Our wildlife is sacred. Animals have enough adversity to get through life without us adding to it. To harvest the meat from a Kangaroo, awful cruelty is deployed, they do not deserve this. Some of you politicians are so far removed from the bush and yet you make judgements based on profits. Please stop this is not a business model we should be encouraging...stop the cruelty, the people that do this line of work are very rough and brutal, they have to be. To allow this to continue you are bludgeoning joeys and sentencing mum's and kangaroos to a slow and very painful death. This is something you will be a part of, I couldn't live with it. We don't want it, so we ask you to please stop.
