**INQUIRY INTO HEALTH AND WELLBEING OF
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Name: Ms Madhuri Pillai
Date Received: 24 April 2021

Culling of animals be it kangaroo or camels is morally wrong and unethical. Kangaroos are indigenous to this country to cull them because farmers consider them to be pest is speciesism, humans do not own the earth, earth belongs to all, we share the space with other animals. Maybe humans should cull themselves, as they are fast taking over earth space and ruining it.
