to whom it may concern

That word concern has been with us all of the time my daughter has lived at the property. Her dad and I have not been able stay with them because of their concern for us with all of the shooting and slaughter of the kangaroos.

So we had to drive 3 hours to them, stay 2 hours then 3 hours back home.

Diane's dad dies last year and it broke his heart at not being able to see and see her as much as he wanted and help her. This has also broken Diane's heart, she loved her dad.

The people who do the shooting show no concern for anyone, they start shooting early evening and go until 3-4am. there is no way Diane would let us stay with what was going on. There is no way any of this can be justified.

We have watched Diane go downhill healthwise, having lights shone in front of the home has been terrible.

That word concern comes to me again and again. The people who do this show no concern for other people. How dare they do this to anyone.

This has had a big impact on me and my family and why isn't anyone CONCERNED about this.
