KANGAROOS AND OTHER MACROPODS IN NEW SOUTH
WALES**

Our native wildlife needs a break. We need to protect them from us. With Exclusion fences, the Commercial Kangaroo Industry, the Culling of native animals & the loss of Kangaroo & other wildlife habitat at a shocking rate we are fast approaching a time when these animals will be gone. It's got to change or these unique animals are doomed. I hope I'm not alive to see such a thing.
