**INQUIRY INTO WASTE AVOIDANCE AND RESOURCE
RECOVERY AMENDMENT (PLASTICS REDUCTION)
BILL 2021**

Name: Ms Francisa Miller

Date Received: 2 May 2021

I am very concerned that we are killing our wildlife by continuing to allow the use of plastic dome lids, plastic ring seals and other plastic container products. Unfortunately, birds and other animals suffer horrific deaths by starvation or strangulation when they are caught in them.

Please ban all plastic dome lids, plastic ring seals of all sizes & other plastic products to end the problems that we cause to animals. Only allow animal and environment-friendly lids, seals, containers & other products to be used.
