

**INQUIRY INTO WASTE AVOIDANCE AND RESOURCE  
RECOVERY AMENDMENT (PLASTICS REDUCTION)  
BILL 2021**

**Name:** Mrs Chris Hughes  
**Date Received:** 3 May 2021

---

With respect,

I ask that you consider adding dome shaped lids to the first round of plastic products to be banned. Steps were taken to prevent the blue rings from milk bottle tops entering the environment when it was realised they were a danger to our bird life and now that the public has become aware that dome lids can also cause long and agonising deaths over 3500 concerned citizens have requested action.

It is heartening to see steps being taken to address the serious effect plastic is having on our health and environment but I ask that you prioritise the banning of articles, such as these dome lids, that can cause immediate suffering to wildlife.

Chris Hughes
