

**INQUIRY INTO WASTE AVOIDANCE AND RESOURCE  
RECOVERY AMENDMENT (PLASTICS REDUCTION)  
BILL 2021**

**Name:** Miss Linda Wallin

**Date Received:** 3 May 2021

---

Please ban Plastic Dome Shaped Lids. I find these horrible lids littered everywhere. They are so dangerous to wildlife, in the water or on land, that can get caught in the lid. They also look like Jellyfish in the water. They will not be missed by people because they are just not needed. My sister Wendy has been trying to get them banned for two years after our friend Julie took an upsetting photo of a poor Corella with a Dome Lid stuck tight around his neck in Deception Bay. Thank you.
