**INQUIRY INTO HEALTH AND WELLBEING OF  
KANGAROOS AND OTHER MACROPODS IN NEW SOUTH  
WALES**

**Name:** Tina Maddison

**Date Received:** 15 April 2021

---

The wholesale slaughter of our beloved national emblem the kangaroo and her joey and the family is over done. Clubbing baby joeys as the Canadians club baby seals is barbaric and needs to stop.

There is no-one there regulating what happens in the dead of night in the bush or outback. Cruelty abounds. The shooters enjoy the kill, the torture and if you don't believe that then you need to go and see it for yourselves.

I hope the American govt. sees sense and bans the import of this dirty kangaroo leather and meat industry.

Man overkills, over eats and is cruel.

No more killing our wonderful wildlife. They don't hurt anybody.

Be kind because you can.

Thankyou.
