**INQUIRY INTO LONG TERM SUSTAINABILITY AND
FUTURE OF THE TIMBER AND FOREST PRODUCTS
INDUSTRY**

It is complete madness - and you could call suicidal, to be continuing with the current practises of logging in this country. We need to look at what this is doing to our land, wildlife and the bigger global picture. And look at other countries such as Germany who have sustainable forestry practise and demonstrate they actually care about the natural world and ultimately the humans that depend on it.
