**INQUIRY INTO LONG TERM SUSTAINABILITY AND
FUTURE OF THE TIMBER AND FOREST PRODUCTS
INDUSTRY**

Name: Ms Jennifer Rae

Date Received: 23 May 2021

Public forests should be for people to enjoy and experience nature, and for animals, birds and insects to thrive in. Continued logging will see the end of koalas. Our hard-wood trees should not be logged. If people want to make money from trees, they should establish sustainable plantations, not in our forests.
