**INQUIRY INTO PROTECTION OF THE ENVIRONMENT  
OPERATIONS AMENDMENT (CLEAN AIR) BILL 2021**

**Name:** Ms Sarah Avery

**Date Received:** 18 May 2021

---

At a time when we need to at least slow down climate change before our beautiful Planet Earth is destroyed forever and us with it we need more regulation to how we produce energy and what it does to our home. There are numerous clean, sustainable power sources we already know of which could be developed to replace the old fossil fuel sources that continually add to the climate change problem. I urge you to introduce to such measures which will stop greedy thoughtless companies from continuing to damage our planet only because of the money that is made. We have the technology and knowledge to make this Earth of ours a safer, cleaner place which will last for a lot longer.
