INQUIRY INTO ROAD TOLLING REGIMES

Name: Mr Allan Lovell

Date Received: 16 May 2021

I drive a Mercedes Sprinter Campervan. It is 2.6m high. My last trip on Northconnex and M2 I was billed as a truck. Upon enquiry I was told vehicles over 2.9. high get billed as truck. I explained I was only 2.6m. Still waiting for reply. On the same journey the M7 and M5 correctly billed me. On previous journeys the M2 has correctly identified my vehicle as under that limit.

I submit that these operators be made to ensure their hight scanning and billing be made more accurate or penalties should be imposed.

This overcharge exceeded \$20 per trip. This is unacceptable especially for a retired senior.

Also, I note that caravans get a special exemption, but that motorhomes and campervans do not. How does this make sense?

Thankyou
Allan
