

**INQUIRY INTO IMPACT OF THE WESTERN HARBOUR  
TUNNEL AND BEACHES LINK**

**Name:** Name suppressed

**Date Received:** 1 June 2021

---

Partially  
Confidential

Western Harbour Tunnel and Beaches Link will result in a traffic bottleneck and "rat runs" in our local area - Cammeray.

Traffic restrictions should be introduced to prevent Lytton St Cammeray from becoming busy 24 hour short cut that will result in noise and loss of amenity.

Preferred options are :

1. Block westbound traffic from Ernest street turning left and then proceeding south down Lytton street and then turning left (east) into Falcon street. This is a short cut to Harbour bridge and tunnel.

2. Convert Lytton St access into a one way street, with only northbound traffic flow.

I am concerned that no firm proposals for traffic management of our street have been made and that issue will be subsequently ignored.
