**INQUIRY INTO LONG TERM SUSTAINABILITY AND
FUTURE OF THE TIMBER AND FOREST PRODUCTS
INDUSTRY**

Name: Margaret Booth

Date Received: 23 May 2021

Dear Committee,

Please support the phasing out of native forest logging and move into plantations. The current forestry management is threatening the Swift Parrots who come to South eastern mainland from Tasmania to feed on eucalyptus flowers.

I am writing as a NSW resident, voter and bird lover who is deeply concerned about the decline and extinction of the Swift Parrot and its Spotted Gum forests of the New South Wales south coast.

Yours sincerely,
Margaret Booth
